Dave,
see the message below. Are you aware of any calls made directly to Langley AFB from ZID? Can you do what you can to check this out given the short timeframe of the request? There is a hearing tomorrow and FAA will be testifying before the Commission.

Thanks.

Shirley

Stephanie, Pat, Shirley

Request DoD and FAA expeditiously, by 1000 if possible, confirm whether the following call went from Indy Center to Langley AFB or to Scott AFB on 9/11

11SEP2001 1308Z URQUHAML (01105577) System Date: 11SEP01 1549Z Delta: -2.69hrs

FM IND ARTCC (EK) RED'D REPORT OF POSSIBLE MISSING ACFT. AMERICAN AIRLINES FLT 77 BOING 757 DEP FROM WASHINGTON DULLES (IAD) TO LOS ANGELES (LAX). RADIO AND RADAR CONTACT WAS LOST OVER YORK VOR (YRK) 38 42.0 N 082 49.0 FLT LEVEL 35000

Source is a FAX from RCC Langley to Indy Center 26 Sep 01 covering log incident #01105577, as

provided by FAA.

If the call went from Indy to Scott, when was the first time, if at all, that Indy Center talked directly to Langley?

Appreciate prompt assistance as we complete fact verifications.

Miles Kara
